

Visited translation committee, reminder that if you are having an event that needs the interpretation equipment, please inform the committee and negotiate how to transfer the necessary equipment. Attended Pacific Regional Forum in Vegas and I have been participating in policy, finance, IT, and young people. An issue has arisen in regards to the Big Day Assembly this September. As an Area Committee we need to decide to either change the date and keep the location, or keep the date and move locations. I hope before we get to this item tonight in new business, you take an opportunity to reflect on which choice will assure the most GSR attendance at this event. An update of the inventory of the area's capital equipment needs to be done, so I'm going to need everyone's help to locate and take stock of all of our assets. We have a very full agenda tonight so let's go.
